

The British Institute of Musculoskeletal Medicine Upcoming Events 2016

19th October 2016

Injection RoadShow

Blackberry Clinic, Milton Keynes.

The one day BIMM workshop 'Soft Tissue Examination & Injections', it offers experiential learning with a high tutor to learner ratio (no more than 1:6) and is suitable for general practitioners, GP registrars and hospital doctors beginning or considering a career or special interest in musculoskeletal medicine. Physiotherapists, nurse and osteopathic practitioners have also found much value in these courses in the past. This course is based around a series of workstations through which participants rotate, learning surface anatomy, examination skills, indications for injection, needle placement (with practice on models) and safety issues.

24th November

Fluoroscopic Injection course

Blackberry Clinic, Milton Keynes

This course will provide practical instruction for MSK, SEM and trainee pain Physicians to enable them to expand their practice to encompass fluoroscopically guided spinal injections. Delegates are required to be proficient in peripheral injections before attending. The course provides a good grounding in anatomy, needle skills and practical considerations. Procedures covered include caudal epidurals, sacroiliac injections, facet joint injections and prolotherapy for spinal pathology including instability. The use of injection phantoms as an alternative to cadavers makes this course unique in the UK

December, TBA

Prolotherapy Course

Blackberry Clinic, Milton Keynes

3rd December

BIMM Winter Symposium

Brighton.

Programme included presentations and workshop on "The Alexander Technique"

13th May 2017

Spring Symposium

Loughborough
